The Tripartite Collaboration is a concept of strategic coordination between the European Commission, the EOSC Association (EOSC-A) and every Member State and Associated Country involved in the EOSC Steering Board. Together, they want to resource and support the implementation of the EOSC environment in Europe. An EOSC Tripartite Event aims to intensify outreach and coordination of EOSC relevant actions at national level. This event is expected to trigger engagement and reinforce dialogue between relevant Ministries, Research Performing Organisations, Research Funding Organisations and the wider EOSC research community. This National Tripartite Event aims at promoting the Open Science and EOSC policy development in Georgia and increase EOSC’s visibility in the country. The hosting organisation in Georgia is the Ministry of Education and Science of Georgia.
